

**Eastern New Mexico University CDIS Leveling Program**

<b>CSUN Course</b>	<b>Course Number</b>	<b>Course Title</b>	<b>Course Description</b>
405 (340)	CDIS 310	Phonetics/Phonology	The study of phonetics; the position, movements and acoustic properties of speech sounds and introduction to the International Phonetic Alphabet and diacritics; primary emphasis on transcription training for normal speech, disordered speech and dialectally influenced speech.
410 (345)	CDIS 300	Speech-Language Anatomy and Physiology	Structure and function of speech and hearing mechanisms including respiration, phonation, articulation, resonance, hearing and neurology.
	CDIS 400	Speech and Hearing Science	Advanced science course normal speech production and perception. Topics include the evolution of speech, research in speech production and perception, acoustics, acoustic phonetics, laboratory instrumentation and computer applications.
415 (360)	CDIS 330	Speech and Language Development	Understanding of speech/language learning process/theory in the child, adolescent and young adult years; phonological/articulatory phonetic, morphological, semantic, syntactic and pragmatic taxonomic aspects of speech/language development explored; physical, cognitive and social development as related to speech & language acquisition/organization.
442	CDIS 300	Speech-Language Anatomy and Physiology	Structure and function of speech and hearing mechanisms including respiration, phonation, articulation, resonance, hearing and neurology.
	CDIS 400	Speech and Hearing Science	Advanced science course normal speech production and perception. Topics include the evolution of speech, research in speech production and perception, acoustics, acoustic phonetics, laboratory instrumentation and computer applications.
445	CDIS 342	Basic Audiology	Introduction to pathologies of the auditory and vestibular systems and the basic audiologic evaluation with emphasis upon pure tone and speech audiometry, clinical masking, acoustic immittance and interpretation.
446	CDIS 434	Aural Rehabilitation	Effects of hearing loss in adults and children. Considerations in the management of the deaf and hard-of-hearing, including electroacoustic amplification and communication therapy.
450			
451	CDIS 311	Articulation/Phonological Disorders	Characteristics, causes and treatment of articulation and other speech disorders in children and adults; specific emphasis on clinical management techniques.
462	CDIS 332	Language Disorders	Characteristics, causes, assessment and treatment of language disorders in children and

			adolescents; specific emphasis on clinical management techniques.
469A	CDIS 454	Speech and Language Assessment	Administration, scoring, and interpretation of testing in speech and language; statistical and psychometric principles of normative, standardized assessment as well as criterion referenced evaluation, dynamic testing, and authentic assessment considerations; reliability, validity, and eligibility/functional needs also addressed.
